

ATTENTION: DATA GENERAL USERS

# ONLY DECISION OFFERS BIG DISK PERFORMANCE AT SMALL DISK PRICES

New from Decision—A fully integrated, IBM compatible, floppy disk system with these exclusive features:

- read before write address verification
- 16-bit polynomial divisor CRC check
- automatic data verification and diagnostic mode
- full disk operating system with Fortran

All these extra features to ensure ultra-reliability. Our floppy disk controller and system is a compatible extension of our entire line of minicomputer peripherals. Our software is totally compatible for immediate use should applications require upgrading to front load cartridge, top load cartridge, 100 and 200 TPI and the 2314 styles. This 19" rack mounted system is rated in excess of

5,000,000 passes per track with the heads in contact with the media. For even longer life, the controller automatically lifts the head when not in use.

Our controller is on a single board, inserts in any Nova-line\* mainframe, and can also accommodate a Teletype controller and real time clock. Finally, you get real use out of 4-slot mainframes.

Our concern for media life and reliability will pay you dividends in system value. Delivery for instant plug-in to your Data General Nova in 30 days. For DEC very soon.

**DECISION, INC.**, 5601 College Avenue, Oakland, Calif. 94618 or telephone (415) 654-8626.
