

Erratum

In the preparation of the *IBM Journal of Research and Development*, Volume 31, Number 1, January 1987, a number of production and printing problems were encountered.

Figures in two papers were affected by these problems: page 26, Figure 8, "Binary-image-manipulation algorithms in the Image View Facility," Anderson et al.; page 34, Figure 2 and page 39, Figure 7, "PANDA: Processing Algorithm for Noncoded Document Acquisition," Chen, Mintzer, and Pennington.

Replacement figures are being distributed with this issue.
