

Reprints

Reprints of papers published in the *IBM Systems Journal* during the past five years are available from IBM for \$1.00 each. All reprints should be ordered by the form number that is at the end of each paper, shown on the right in the list below. Customers and others outside of IBM should order from the local IBM branch office. IBM employees in the U.S. can order from the Mechanicsburg Distribution Center, and employees elsewhere in IBM can order through their Country Literature Coordinator or local company library. A cumulative index of papers published through 1988 is also available as order number G321-5344. The following list of reprints are those currently available.

1986

- | | | | |
|--|-----------|--|-----------|
| The IBM 3090 system: An overview
S. G. Tucker | G321-5258 | Knowledge-based systems in the commercial environment
E. D. Hodil, C. W. Butler, and G. L. Richardson | G321-5268 |
| IBM 3090 performance: A balanced system approach
Y. Singh, G. M. King, and J. W. Anderson | G321-5259 | YES/MVS and the automation of operations for large computer complexes
K. R. Milliken, A. V. Cruise, R. L. Ennis, A. J. Finkel, J. L. Hellerstein, D. J. Loeb, D. A. Klein, M. J. Masullo, H. M. Van Woerkom, and N. B. Waite | G321-5269 |
| Engineering and scientific processing on the IBM 3090
D. H. Gibson, D. W. Rain, and H. F. Walsh | G321-5260 | The genesis of a knowledge-based expert system
J. A. Voelker and G. B. Ratica | G321-5270 |
| The IBM System/370 vector architecture
W. Buchholz | G321-5261 | Prolog for applications programming
W. G. Wilson | G321-5271 |
| Vector system performance of the IBM 3090
R. S. Clark and T. L. Wilson | G321-5262 | The numeric representation of knowledge and logic—Two artificial intelligence applications in medical education
W. D. Hagamen and M. Gardy | G321-5272 |
| The System Usability Process for Network Management Products
K. D. Gottschalk | G321-5263 | The Portable Inference Engine: Fitting significant expertise into small systems
N. A. Burns, T. J. Ashford, C. T. Iwaskiw, R. P. Starbird, and R. L. Flagg | G321-5273 |
| Network management software usability test design and implementation
L. C. Percival and S. K. Johnson | G321-5264 | Computer processing of dates outside the twentieth century
B. G. Ohms | G321-5274 |
| Improving availability of software subsystems through on-line error detection
L. Koved and G. Waldbaum | G321-5265 | Systems architecture in transition—An overview
H. Lorin | G321-5275 |
| Workstations and mainframe computers working together
J. K. Kravitz, D. Lieber, F. H. Robbins, and J. M. Palermo | G321-5266 | Impact of memory systems on computer architecture and system organization
R. E. Matick | G321-5276 |
| Introduction to IBM's knowledge-systems products
A. J. Symonds | G321-5267 | Computing as a tool for human augmentation
W. J. Doherty and W. G. Pope | G321-5277 |
| | | IBM small-system architecture and design—Past, present, and future
G. G. Henry | G321-5278 |
| | | Software engineering: An emerging discipline
R. Goldberg | G321-5279 |
| | | Tools for building advanced user interfaces
J. L. Bennett | G321-5280 |
| | | Open Systems Interconnection
J. R. Aschenbrenner | G321-5281 |
| | | An advanced voice/data telephone switching system
J. M. Kasson | G321-5282 |
| | | The evolution of printers and displays
A. F. Mayadas, R. C. Durbeck, W. D. Hinsberg, and J. M. McCrossin | G321-5283 |

1987

Structures for networks of systems A. L. Scherr	G321-5284	The IBM RT PC ROMP processor and memory management unit architecture R. O. Simpson and P. D. Hester	G321-5301
SNA: Current requirements and direction R. J. Sundstrom, J. B. Staton III, G. D. Schultz, M. L. Hess, G. A. Deaton, Jr., L. J. Cole, and R. M. Amy	G321-5285	Advanced Interactive Executive program development environment R. Q. Cordell II, M. Misra, and R. F. Wolfe	G321-5302
Prospects and design choices for integrated private networks P. E. Green, Jr. and D. N. Godard	G321-5286	AIX usability enhancements and human factors F. C. H. Waters, R. G. Bias, and P. L. Smith-Kerker	G321-5303
Robotics J. U. Korein and J. Ish-Shalom	G321-5287	Box structured information systems H. D. Mills, R. C. Linger, and A. R. Hevner	G321-5304
Database technology P. G. Selinger	G321-5288	A perspective on Advanced Peer-to-Peer Networking P. E. Green, R. J. Chappuis, J. D. Fisher, P. S. Frosch, and C. E. Wood	G321-5305
A perspective on the 801/Reduced Instruction Set Computer M. E. Hopkins	G321-5289	Implementing System/36 Advanced Peer-to-Peer Networking R. A. Sultan, P. Kermani, G. A. Grover, T. P. Barzilai, and A. E. Baratz	G321-5306
Data communications: The implications of communication systems for protocol design B. C. Goldstein and J. M. Jaffe	G321-5290		
A large-scale computer conferencing system D. M. Chess and M. F. Cowlshaw	G321-5291	1988	
OSI-SNA interconnections K. K. Sy, M. O. Shiobara, M. Yamaguchi, Y. Kobayashi, S. Shukuya, and T. Tomatsu	G321-5292	SNA network management directions D. B. Rose and J. E. Munn	G321-5307
Visual interpretation of complex data E. J. Farrell	G321-5293	Utilizing the SNA Alert in the management of multivendor networks R. E. Moore	G321-5308
An incidence-matrix-driven panel system for the IBM PC P. Halpern, S. M. Roberts, and L. Lopez	G321-5294	Netview/PC M. Ahmadi, J. H. Chou, and G. Gafka	G321-5309
A page-swapping prototype for VM/HPO W. H. Tetzlaff, T. Beretvas, W. M. Buco, J. Greenberg, D. R. Patterson, and G. A. Spivak	G321-5295	An integrated network management product D. Kanyuh	G321-5310
Message-handling systems based on the CCITT X.400 recommendations T. E. Schütt, J. B. Staton III, and W. F. Racke	G321-5296	An architecture for a business and information system B. A. Devlin and P. T. Murphy	G321-5311
Specification and implementation of an ISO session layer A. Fleischmann, S. T. Chin, and W. Effelsberg	G321-5297	The design of Operating System/2 M. S. Kogan and F. L. Rawson III	G321-5312
A framework for information systems architecture J. A. Zachman	G321-5298	OS/2 EE Database Manager overview and technical highlights P. Y. Chang and W. W. Myre	G321-5313
The structure of System/88, a fault-tolerant computer E. S. Harrison and E. J. Schmitt	G321-5299	OS/2 Query Manager overview and prompted interface S. L. Watson	G321-5314
Advanced Interactive Executive (AIX) operating system overview L. K. Loucks and C. H. Sauer	G321-5300	Writing an Operating System/2 application R. L. Cook, F. L. Rawson III, J. A. Tunkel, and R. L. Williams	G321-5315
		COBOL/2: The next generation in applications programming R. Sales	G321-5316

Understanding device drivers in Operating System/2 A. M. Mizell	G321-5317	Engineering and Scientific Subroutine Library for the IBM 3090 Vector Facility J. McComb and S. Schmidt	G321-5335
VGA—Design choices for a new video subsystem S. Thompson	G321-5318	IBM Parallel FORTRAN L. J. Toomey, E. C. Plachy, R. G. Scarborough, R. J. Sahulka, J. F. Shaw, and A. W. Shannon	G321-5336
The Realtime Interface Co-Processor Multiport/2 adapter S. C. G. Sykes	G321-5319	Program locality of vectorized applications running on the IBM 3090 with Vector Facility K. So and V. Zecca	G321-5337
An introduction to typographic fonts and digital font resources A. W. Griffie and C. A. Casey	G321-5320	Programming style on the IBM 3090 Vector Facility considering both performance and flexibility H. Samukawa	G321-5338
Advanced Function Printing: A tutorial R. K. deBry and B. G. Platte	G321-5321	ICAP/3090: Parallel processing for large-scale scientific and engineering problems E. Clementi, D. Logan, and J. Saarinen	G321-5339
Architectures of Advanced Function Printing R. K. deBry, B. G. Platte, C. L. Berinato, and J. W. Marlin	G321-5322	Seismic computations on the IBM 3090 Vector Multiprocessor A. Kamel, M. Kindelan, and P. Sguazzero	G321-5340
Introduction to Systems Application Architecture E. F. Wheeler and A. G. Ganek	G321-5323	Effective utilization of IBM 3090 large virtual storage in the numerically intensive computations of <i>ab initio</i> molecular orbitals M. Sakaki, H. Samukawa, and N. Honjou	G321-5341
Common Communications Support in Systems Application Architecture V. Ahuja	G321-5324	PAM-CRASH on the IBM 3090/VF: An integrated environment for crash analysis P. Angeleri, D. F. Lozupone, F. Piccolo, and J. Clinckemaulle	G321-5342
Common User Access—A consistent and usable human-computer interface for the SAA environments R. E. Berry	G321-5325	Interactive computations and display of characteristics of the radiation scattered by a sphere: A demonstration for PS/2 Model 80 P. Halpern and J. V. Dave	G321-5343
Application enabling in SAA D. E. Wolford	G321-5326	1989	
Enabling the user interface S. Uhlir	G321-5327	Large systems and Enterprise Systems Architecture B. R. Aken, Jr.	G321-5345
Integrating applications with SAA L. A. Buchwald, R. W. Davison, and W. P. Stevens	G321-5328	Enterprise Systems Architecture/370: An architecture for multiple virtual space access and authorization C. A. Scalzi, A. G. Ganek, and R. J. Schmalz	G321-5346
Designing SAA applications and user interfaces W. P. Dunfee, J. D. McGehe, R. C. Rauf, and K. O. Shipp	G321-5329	Concepts of Enterprise Systems Architecture/370 K. E. Plambeck	G321-5347
Distributed files for SAA R. A. Demers	G321-5330	Storage hierarchies E. I. Cohen, G. M. King, and J. T. Brady	G321-5348
Distributed database for SAA R. Reinsch	G321-5331	System-managed storage J. P. Gelb	G321-5349
SAA distributed processing A. L. Scherr	G321-5332	Multiple operating systems on one processor complex T. L. Borden, J. P. Hennessy, and J. W. Rymarczyk	G321-5350
The Cross System Product application generator: An evolution W. K. Haynes, M. E. Dewell, and P. J. Herman	G321-5333		
IBM's directions in technical computing P. L. Prairie and A. H. Weis	G321-5334		

The facilities and evolution of MVS/ESA C. E. Clark	G321-5351	Design rationale of the AS/400 user interface J. H. Botterill	G321-5369
MVS data services K. G. Rubsam	G321-5352	Object-oriented programming R. P. Ten Dyke and J. C. Kunz	G321-5370
VM/XA SP2 minidisk cache G. P. Bozman	G321-5353	A message management system for personal computers L. d'Arielli	G321-5371
VM/XA storage management G. O. Blandy and S. R. Newson	G321-5354	History and contributions of the IBM Scientific Centers H. G. Kolsky and R. A. MacKinnon	G321-5372
Evolution of the DASD storage control C. P. Grossman	G321-5355	Visual programming: Perspectives and approaches N. C. Shu	G321-5373
Local-area distributed systems R. C. Summers	G321-5356	The WINSOM solid modeller and its application to data visualization J. M. Burridge, B. M. Collins, B. N. Galton, A. R. Halbert, T. R. Heywood, W. H. Latham, R. W. Phippen, P. Quarendon, P. Reilly, M. W. Ricketts, J. Simmons, S. J. P. Todd, A. G. N. Walter, and J. R. Woodwark	G321-5374
System-independent file management and distribution services J. C. Ashfield and D. B. Cybrynski	G321-5357	Data visualization in archaeology P. Reilly	G321-5375
Managing changes in SNA networks C. P. Ballard, L. Farfara, and B. J. Heldke	G321-5358	GARDEN—An integrated and evolving environment for ULSI/VLSI CAD applications A. H. V. de Lima, R. C. B. Martins, R. Stern, and L. M. F. Carneiro	G321-5376
REXX on TSO/E G. E. Hoernes	G321-5359	An Arabic morphological system T. A. El-Sadany and M. A. Hashish	G321-5377
Program understanding: Challenge for the 1990s T. A. Corbi	G321-5360	Designing molecules and crystals by computer A. Koide	G321-5378
DS-Viewer—An interactive graphical data structure presentation facility D. P. Pazel	G321-5361	S*P*A*R*K: A knowledge-based system for identifying competitive uses of information technology P. Gongla, G. Sakamoto, A. Back-Hock, P. Goldweic, L. Ramos, R. C. Sprowls, and C.-K. Kim	G321-5379
A program understanding support environment L. Cleveland	G321-5362	Concurrent computing by sequential staging of tasks J. Gazdag and H.-H. Wang	G321-5380
Technical note—Engineering and Scientific Subroutine Library Release 3 for IBM ES/3090 vector multiprocessors R. C. Agarwal, F. G. Gustavson, J. McComb, and S. Schmidt	G321-5363	Advanced Information Management (AIM): Advanced database technology for integrated applications P. Dadam and V. Linnemann	G321-5381
System overview of the Application System/400 D. L. Schleicher and R. L. Taylor	G321-5364	Technical note—Computer sculpture W. H. Latham and S. J. P. Todd	G321-5382
Design, test, and validation of the Application System/400 through early user involvement B. J. Pine II	G321-5365		
A new development rhythm for AS/400 software R. A. Sulack, R. J. Lindner, and D. N. Dietz	G321-5366		
Application System/400 performance characteristics B. E. Clark and M. J. Corrigan	G321-5367		
The Application System/400 help facility—design philosophy and considerations D. A. Charland	G321-5368		
		1990	
		Experiences with Defect Prevention R. G. Mays, C. L. Jones, G. J. Holloway, and D. P. Studinski	G321-5383
		Implementing the Defect Prevention Process in the MVS Interactive programming organization J. L. Gale, J. R. Tirso, and C. A. Burchfield	G321-5384

Effective development for Presentation Manager programs S. M. Franklin and A. M. Peters	G321-5385	Introduction to image technology R. M. Helms	G321-5402
Using box structures for definition of requirements specifications J. E. Odom	G321-5386	The Image Object Content Architecture Y. Hakeda	G321-5403
Implementing tool support for box structures B. S. Tagg	G321-5387	Large-scale image systems: USAA case study C. A. Plesums and R. W. Bartels	G321-5404
Porting DPPX from the IBM 8100 to the IBM ES/9370: Feasibility and overview R. Abraham and B. F. Goodrich	G321-5388	ImagePlus as a model for application solution development C. D. Avers and R. E. Probst	G321-5405
Porting DPPX from the IBM 8100 to the IBM ES/9370: Migration C. Goodrich and M. B. Loughlin	G321-5389	Image system communications H. M. Morris and R. H. Orth	G321-5406
Porting DPPX from the IBM 8100 to the IBM ES/9370: Installation and testing G. E. Boehm, A. M. Palmiotti, and D. P. Zingaretti	G321-5390	Object storage hierarchy W. B. Harding, C. M. Clark, C. L. Gallo, and H. Tang	G321-5407
REASON: An intelligent user assistant for interactive environments J. M. Prager, D. M. Lamberti, D. L. Gardner, and S. R. Balzac	G321-5391	ImagePlus Workstation Program G. B. Anderson, B. P. Gross, S. M. Lewis, and J. A. Reimer	G321-5408
AD/Cycle strategy and architecture V. J. Mercurio, B. F. Meyers, A. M. Nisbet, and G. Radin	G321-5392	Personal systems image application architecture: Lessons learned from the ImagEdit program A. Ryman	G321-5409
The role of work management in application development G. Chroust, H. Goldmann, and O. Gschwandtner	G321-5393	ImagePlus High Performance Transaction System R. F. Dinan, L. D. Painter, and R. R. Rodite	G321-5410
Repository Manager technology J. M. Sagawa	G321-5394	Intelligent Forms Processing R. G. Casey and D. R. Ferguson	G321-5411
Data modeling for software development R. W. Matthews and W. C. McGee	G321-5395	AS/400 ImagePlus system view M. Addink and J. J. Mullen	G321-5412
User interface services in AD/Cycle J. M. Artim, J. M. Hary, and F. J. Spickhoff	G321-5396	Experience gained in implementing ImagePlus B. T. Perry, B. A. Wester, W. W. Baker, and J. F. Kemmis	G321-5413
DevelopMate: A new paradigm for information system enabling K. P. Hein	G321-5397	Multimedia presentation development using the Audio Visual Connection D. J. Moore	G321-5414
Cross System Product application generator: Application design M. E. Dewell	G321-5398	Business/enterprise modeling R. L. Katz	G321-5415
Knowledge-based systems in the AD/Cycle environment D. M. Hembry	G321-5399	Exponentiation cryptosystems on the IBM PC P. G. Comba	G321-5416
Segmenting discrete data representing continuous speech input R. D. Faulk and F. Goertzel Gustavson	G321-5400	Extension of the relational database semantic processing model T. Hirao	G321-5417
Operational image systems: A new opportunity L. C. Kingman III, R. E. Lambert, and R. P. Steen	G321-5401	Re-engineering software: A case study R. W. Britcher	G321-5418
		Guidelines for authors of the <i>IBM Systems Journal</i> A. G. Davis, J. R. Friedman, M. J. Haims, and G. C. Stierhoff	G321-5419
