

SyncMaster® 4

17" Color Monitor – Model CSA7571

Compatible with both Apple® Mac II® and IBM® systems, the 17" SyncMaster 4 multi-scan color monitor is ideal for business graphics, desktop publishing, various text-based applications, and an array of presentation graphics like Windows®, GEM® and Presentation Manager®.

Super-VGA 1,024 x 768 resolution, unlimited color display and tight .31mm dot pitch keeps everything from graphics to text bold, bright and super clear.

A black, 17" non-glare screen reduces fatigue and enhances readability.

Convenient up-front controls and tilt-swivel base allow easy viewing adjustment.

Compatible with all popular video standards including VGA, EGA, CGA, Hercules, MDA, PGA and Apple Mac II with digital/TTL and analog signal input.

Specifications
