

MISSION CRITICAL COLOR PRINTING

Spectra[★]Star[™] 280

Color Thermal Wax Transfer Printer

***Great Color. More Features.
Best Performance in its Class.***

Spectra[★]Star's new Brilliant Colors and stunning photo-realistic image quality at 600 x 300 dpi resolution leads the industry. The Tally Spectra[★]Star 280 offers three different color modes, Pantone[®] certified color matching and 52 professional fonts. With Spectra[★]Star's impressive resolution of up to 105 lines per inch (equivalent screen frequency) you get the best quality color output in the industry.

Great Color Transparencies at the Lowest Cost Per Page

Spectra[★]Star thermal color printers are the most cost effective at producing impressive color transparencies. When you combine Spectra[★]Star's low cost per page with the lowest price in its class, you will discover why Spectra[★]Star is truly the most economical way to produce professional quality color transparencies.

Performance you Can Count On

Spectra[★]Star color printers outperform the competition with 2 page per minute speed - even on plain paper or transparencies. And the built-in PostScript[®] Level 2 capability is equally impressive. The Spectra[★]Star 280 is powered by the blazingly fast, 33 MHz Intel[®] 960 CF RISC processor and comes with 10 MB of RAM (expandable to 32 MB).

Versatility When You Need It

Spectra[★]Star color printers have a host of built-in features that make them extremely versatile. Mac and PC users can share the same printer thanks to the autosensing feature which switches ports automatically. Print up to 99 copies from the front panel while your computer is free to do other work. Plus, you can get a dual tray option that lets you double your printing capacity and use overhead transparencies or paper without getting up from your desk.

Expandability That Takes You Into The Future.

Tally Spectra*Star color printers lead the field in price performance, but there's more. The Spectra*Star 280 features a new concept in printer technology: Planned Longevity.

Spectra*Star's innovative Pockettes™ let you add functionality yourself with convenient plug and play cartridges. Simply plug in our Ethernet cartridge and your Spectra*Star is instantly LAN capable. Or, plug in a 120 MB hard disk cartridge to print even larger, more complex graphic images without tying up your host computer.
