

*IBM Network Station Family of Thin Clients*  
*Access for today, flexibility for tomorrow*

# Network Station Manager V2R1 AIX Platform Specific Information

August 29, 1999

# Installation on AIX (V1R3 vs. V2R1)

- **Changes relative to Version 1 Release 3**
  - ▶ **V1R3 - product contained in one fileset - netstation.base.rte 1.3.0.x**
  - ▶ **V2R1 - product separated into functional filesets -**
    - eNetstation.base.rte 2.1.0.0
    - eNetstation.S2x00.base.rte 2.1.0.0
    - eNetstation.S300\_1000.rte 2.1.0.0
    - eNetstation.login.rte 2.1.0.0
    - etc.
- **Directory structure which allows for coexistence**
  - ▶ **V1R3 - product resides at /usr/netstation**
  - ▶ **V2R1 - product resides at /usr/NetworkStationV2**
- **NSM product URL's differ for coexistence**
  - ▶ **V1R3 - http://<nsm\_server>/networkstation/admin**
  - ▶ **V2R1 - http://<nsm\_server>/networkstationv2/admin**

# AIX Installation (V1R3 vs. V2R1)

- **Migration from prior release**
  - ▶ **V1R3 - run automatically during AIX installation**
  - ▶ **V2R1 - optionally run from command line after install**

# AIX Installation (filesets & size)

## ■ Typical server installs

- ▶ eNetstation.base 12.20 Meg
- ▶ eNetstation.login .25Meg
- ▶ eNetstation.nsm 2.22 Meg
- ▶ eNetstation.S2x00.base 52.10 Meg corresponding S300\_1000
- ▶ eNetstation.S2x00.emul 4.25 Meg corresponding S300\_1000
- ▶ eNetstation.S2x00.fnts\_all 12.50 Meg corresponding S300\_1000
- ▶ eNetstation.S2x00.ica 1.36 Meg corresponding S300\_1000
- ▶ eNetstation.S2x00.java 11.37 Meg corresponding S300\_1000
- ▶ eNetstation.S2x00.netscape 26.10 Meg corresponding S300\_1000

## ■ International language support

- ▶ eNetstation.msg.<lang> .05 Meg
- ▶ eNetstation.nsm.<lang> 1.40 Meg
- ▶ eNetstation.S2x00.nls.<lang> .90 Meg corresponding S300\_1000

# AIX Installation (filesets & size) (continued)

- **Highly encrypted (US-only) support**
  - ▶ **eNetstation.Sx200.sec128.ica-us** .84 Meg
  - ▶ **eNetstation.Sx200.sec128.netscape-us** 10.20 Meg
  - ▶ **eNetstation.Sx200.sec128.ssl** .24 Meg
  
- **Optional NSM command line tool (requires java.rte on the server)**
  - ▶ **eNetstation.tools** 1.6 Meg
